COVID-19 Outbreak Process at UBTech

**Program Outbreak**
- Three active cases in a program
- Program may be moved to on-line learning for a period of time

**Campus Outbreak**
- Fifteen active cases across multiple programs on one campus
- Effected UBTech campus may be moved to on-line learning for a period of time

**Positive Case Process at UBTech**

1. Report if tested positive to instructor or supervisor
2. Person reporting positive self-quarantines
3. UBTech/TriCounty Health communicate positive test result
4. Person reporting positive/UBTech/TriCounty Health develops contact tracing list
5. Contact tracing list is notified of potential COVID-19 exposure
6. Exposed individuals may be asked to quarantine
7. Return to campus after quarantine

**Important Information**

UBTech will safeguard the privacy of a person reporting positive for COVID-19 to the greatest extent possible.

Individuals who live with someone testing positive for COVID-19, must quarantine for 14 days, prior to returning to campus.
